# Pawpaw Day at Farm Science Review

Are you familiar with Farm Science Review (FSR) and the Gwynne Conservation Area? The Gwynne is a 67-acre conservation area where conservation demos, talks, displays, and tours are held during Farm Science Review, September 19-21, in London, Ohio. Featuring a pond, wetland, tallgrass prairie, stream, pawpaw orchard, and forage plots, the Gwynne offers a little something for everyone.

This year, we dedicate the first day of FSR to Pawpaws! Join us on September 19<sup>th</sup> for a full day talks, walks, and demos that pay tribute to the largest edible fruit native to North America.

**DATE:** Tuesday, September 19, 2023

**TIME:** Talks run throughout the day, 10:30am-3:00pm

**LOCATION:** Gwynne Conservation Area at Farm Science Review

Parking available on Farm Science Review main grounds, take shuttle to Gwynne Conservation Area.

135 SR 38 NE, London, OH 43140

For more information and event schedule, visit [fsr.osu.edu](https://fsr.osu.edu).
