

## Safety Officers

- \* Safety Report - give a safety fact at each club meeting
- \* Demonstrations - give a demo on something you've learned through a 4-H project or on something else that relates to safety
- \* Community Service - get your club involved in a project in your community that relates to safety of that promotes safety
- \* Club Kit - put together your own first aid kit that can be used for your club and be taken to all meetings
- \* Speakers - talk with your advisor and get someone to come and talk to your club on a safety issue
- \* Keeping Records - It's a good idea to record what you do as Safety Officer.

Your job is to promote safety in 4-H projects and everything you do. Try to get your club excited about being safe!

You can participate in the County Health and Safety Speaking Contest or get a group of your club members together and participate in the Health and Safety Skit Contest. The Demonstration Contest is also good way to promote safety or anything else you would like to demonstrate. If you would like more information on this call the County Extension Office at 653-5419.

**Good Luck and Congratulations on your office!!!**
